Diverse breadth of skills in creative problem solving, leadership, and communication. Currently working as an ID II at Johnson Health Tech North America in Madison, WI. Excited about creativity, and passionate about design, experiences, and making the world a happier place.

Experience

Industrial Designer, Johnson Health Tech NA

5-8/2018 & 7/2019 - Current | Madison, WI.

- Senior ID | 7/2025 - Current
- ID II (3D Print Team Lead) | 7/2021 - 7/2025
- ID I | 7/2019 - 7/2021
- ID Intern | 5/2018 - 8/2018

Responsible for researching, designing, prototyping, and reviewing a wide range of fitness equipment products under the Matrix, Horizon, and Vision brands. Job included, but was not limited to: product development, prototyping, sample reviews, plastics design/engineering, overseas travel, cross functional communication, CMF, POS media, UI/UX, graphic development.

Designer/Fabricator, EcoPRT Inc. @ NC State

1/2016 - 6/2019 | Raleigh, NC.

Industrial Design, UI/UX, research, concept development, fabrication, and documentation on the EcoPRT autonomous vehicle project. Worked with 40+ engineers within the College of Engineering at NC State to develop, test, and fabricate an autonomous vehicle for NC State university, the NCDOT, and multiple other sponsors and investors.

Intern, McConnell Studios

1-6/2017 & 8-12/2017 | Raleigh, NC.

Assisted with the fabrication, assembly, and installation of various sculptures and architectural installations. Duties included material sourcing, metal work, wood work, painting, glass work, installing, and increasing efficiency of fabrication tasks.

Prototype Analysis Intern, Leonard Automatics

4-6/2017 & 11-12/2017 | Denver, NC.

Collaborated with engineers, programmers, and machinists to test, fabricate, assemble, and ship new machines and technologies within the industrial garment field. Worked on several industrial garment finishing machines that were the first of their kind within the industry.

Counselor / L.A.M.P Dad, Camp Henry

6-8/2016 & 6-8/2017 | Canton, NC.

Fostered positive growth in campers with the focus of developing leadership through organizing and executing community service. Helped develop the program, and co-lead the group throughout the summer's various activities.

Education

B.ID Industrial Design, Minor in Environmental Sciences

North Carolina State University | Raleigh, NC.

8/2015 - 5/2019 GPA 3.8

Skills

•Product Development
